Summary

A motivated and detail-oriented UI/UX Engineer with over 2 years of experience in creating intuitive and visually stunning interfaces. Proficient in developing websites and/ or softwares in line with Agile Methodology, adaptable to new ideas in complex systems, and adept in object oriented coding. A proven track record of collaborating with cross-functional teams to analyse functional specifications and user experiences, design interfaces, transform design into code, and provide solutions to master complexity. Eager to leverage a diverse skill set of mixed professional experience to contribute to challenging projects and drive continuous improvement in software quality.

Work History

June 2021 - Feb 2023 **Senior UI/UX Engineer**
LGUSuite Inc.

Methodologies: Agile Scrum (2-week Sprint cycle)

Tools: AngularJS, Ionic, GitHub, Heroku

- Successful deployments and user acceptance of the three major projects of the company for the years 2021 to 2023.
- Co-headed and co-managed some of the development modules of the projects' web and mobile applications.
- Coordinated with Senior Business Analysts with the project flow and came up with possible solutions to some urgent modules that needed reprogramming.
- Created and designed web and mobile interfaces
- Resolved critical bugs in coordination with the Quality Assurance Team and helped maintain clean and quality code.

Oct 2020 - June 2021 **Junior UI.UX Engineer**
LGUSuite Inc.

Methodologies: Agile Scrum (2-week Sprint cycle)

Tools: AngularJS, Ionic, GitHub, Heroku

- Successful deployments and user acceptance of the two major projects of the company for the years 2020 to 2021..
- Assisted with creating and maintaining the company website.
- Created and designed web and mobile interfaces.
- Helped maintain and organize overall design throughout the development.
- Resolved critical bugs in coordination with the Quality Assurance Team and helped maintain clean and quality code.

Feb 2020 - June 2020 **Intern (On-the-Job Trainee)**
G DATA AV Lab Inc.
